\$50,672 NSF GRANT FINANCES  
MATH INSTITUTE AT UNIVERSITY

MISSOULA--

A total of 30 high school teachers from 17 states are participating in the 1973 Summer Institute for High School Teachers of Mathematics at the University of Montana under a \$50,672 grant from the National Science Foundation.

Teachers participating in the program are studying mathematics in a specially designed program leading to the Master of Arts degree for teachers of mathematics.

Director of the program is Dr. William R. Ballard. Dr. William M. Myers is associate director. Both men are UM mathematics professors.

This summer's grant is a renewal of a summer institute program in mathematics which began at UM in 1960.
